

For Immediate Release

AMY ALCOTT SIGNS WITH AND BACK NINE GREENS

PALM DESERT, CA, 10th of December 2009 - **AMY ALCOTT**, a member of the World Golf and LPGA Hall of Fame has partnered with Back Nine Greens, a designer and installer of custom backyard putting greens and water saving synthetic green lawns throughout the United States, and will serve as the company's Senior Design Consultant. The parties have embarked on a progressive program to bring the game of golf to residents and communities that have not been considered as viable candidates and environments for the golf experience.

"Since the inception of **Back Nine Greens** in 1997 we have endeavored to become the premier developer and designer of synthetic turf putting greens and landscapes. Taking that mission to the next level, our goal was to align with one of the best golfers of our time and Amy Alcott was our first choice. Her Hall of Fame career and strong creative gift for the game will enhance our business in the private and commercial sectors and we are very excited to have Amy on our team. We have realized tremendous response thus far from our customers and there is every reason to believe Amy Alcott will be the 15th club in our bag," said Dominic Nappi, Founder and President of Back Nine Greens.

"I am very pleased to be working with Dominic and his talented staff. We are like-minded in our aspirations to work "green" in the world of golf and Back Nine Green's first-class synthetic turf and attention to details and creativity made my decision to join the company an easy one. Moreover, it presents me with new opportunities to bring the game into residential backyards and commercial arenas for the general public for the first time. Golf can be enjoyed on numerous landscapes aside from an 18-hole golf course and that experience can also be affordable," explained Alcott.

The company's products and services will include an **Amy Alcott Design Series**, which will offer each client one-on-one consultation with Alcott for their customized putting green and practice environments and a few putting and chipping tips will no doubt be part of the package upon the completion of each project.

About Amy Alcott

Amy Alcott was inducted into the World Golf and LPGA Halls of Fame in 1999. She is the winner of 32 professional titles, including five major championships. Throughout her 30-year career, golf writers and her peers have arguably considered her one of the finest shot makers in the game. She continues to enjoy a robust schedule of pro-ams, corporate events and speaking engagements. She has served as the design consultant for *Indian Canyon Golf Resort* in Palm Springs, CA and *Brick Landing Golf Course* located in Ocean Isle, NC.

About Back Nine Greens

Since 1997, Back Nine Greens has been installing the highest quality synthetic lawns and putting greens available, longer than any other synthetic turf company in California. With uncompromising commitment to quality and expertise that can only be achieved through success with thousands of custom designed installations, Back Nine Greens stands at the head of the class in this rapidly growing market.

Designed and installed from concept to completion with options available to fit any budget, the amazing ability to fit any surrounding make Back Nine Greens synthetic turf blend with nature.

Installing greens nationwide, and developing a national reputation for excellence, is evidenced by Back Nine Greens being the synthetic turf of choice for the most discerning of upscale clients.

In fact, Back Nine Greens maintains, repairs and rebuilds greens built by other companies that have come and gone over the years, and frequently gets called in to deliver professional results for clients who realized too late that calling Back Nine Greens first is the only choice to make. With custom design services for each client and seamless integration of synthetic turf with natural landscape, Back Nine Greens is a beautiful, worry free investment in your property you will enjoy for years to come.
